**ASLI™**  
AYURVEDA  
The Power Of Pure

**Ayurvedic Alchemy**  
**The ASLI Capsule Collection**

**ASLI promises Holistic HEALTH ...**  
**The Authentic way...**  
**The असली way...**  
**The Ayurvedic way !**

**Namaste !**

**I just landed Here - in the GRACE of AYURVEDA !**

Having been born and raised in a family where life always revolved around Religious and Spiritual Practices , it was natural of me to get inclined towards the ethos of ANCIENT INDIAN WISDOM very early in my life.

The then education system which always tried shaping the mindset to choose becoming a Doctor , Lawyer or Engineer etc. , never attracted me . I had this clarity as a student, that I would be an ENTREPRENEUR once I grow up and true understanding of ENTREPRENEURSHIP to me , also came from my exposure to the old Indian schools of learning where the objective of setting up a business was always about adding value in the lives of people who subscribe to your business .

This approach of working for VALUE ADDITION and not VALUATION brought me many REWARDS all my life in my journey as an Entrepreneur. Impeccable Academic Credentials , laurels all my way , Life brought me beautiful rewards in all aspects . Having successfully built many businesses across varied sectors like Manufacturing, Export , Healthcare , Lifestyle and Network Marketing etc. , I still felt intense longing for more and then ..... .

*I distinctly understood the importance of inner well being and importance of Spirituality as a mainstream practice and ..... .*

**I finally arrived at YOGA**

.....because nothing else seemed to settle me. Ever since , I got initiated into YOGA by my MASTER - SADHGURU , my perspective towards life and livelihood both got transformed and convinced me to set up an enterprise in sync with YOGA and this is how the idea of AYURVEDA happened to me . Sooner , with immense pain, I discovered the lack of authenticity in the modern day ecosystem where majorly, it has become just another Business .

Then after, I took pledge to embark on a transformative entrepreneurial journey and turned into a lifelong student of AYURVEDA. As a manifestation to this , with the Blessings of SADHGURU, I mothered **ASLI AYURVEDA** -a world class manufacturing facility to support BEAUTY and WELLNESS brands across the Globe , with ONE STOP SOLUTION for all their Contract Manufacturing Needs with Authenticity , Integrity and Purity of AYURVEDA!

*Mohit Sardana*

Founder  
(ASLI AYURVEDA Wellness Pvt. Ltd.)

**Mohit Sardana**, an adherent of the Yogic & Ayurvedic school of life style-a serial entrepreneur, founder of **ASLI AYURVEDA** strives to make **HEALTH**- an effortless habit through his endeavour in manufacturing Ayurvedic formulations.

With his newly established, state of the art, AYUSH certified, US-FDA registered, FSSAI licensed, & accreditations like WHO-GMP, NPOP, HACCP, ISO22000-2018 etc, he is committed to add value in the Ayurveda and Nutraceuticals Industry by supporting Beauty and Wellness Brands for their contract manufacturing needs.

**ASLI AYURVEDA** is all set to reignite PRIVATE LABEL & CONTRACT MANUFACTURING Natural-Wellness INDUSTRY !

Post pandemic, conscious people are altering their lifestyles by resorting to herbal remedies, food supplements & natural cosmetics.

This has led to plethora of opportunities for Retailers and Wellness Brands, who are already planning to elevate their presence and positioning - both, offline and online.

Expanding their brand portfolio to meet this surge in demand, finding quality, consistent and reliable Contract Manufacturers remains their top most priority. By being authentic and natural, as desired by our ancient SAGES in AYURVEDA, justifying the nomenclature 'ASLI' is what sets this company apart from the rest. (ASLI (असली), literally means genuine & authentic) .

Beyond R&D, ASLI'S world class infrastructure and scalable capacities, a brand can expect turnkey solutions including new product ideas, packaging and label designs. The packaging lines have the versatility to fill creams, liquids, powders, capsules, tablets & herbal teas etc.

The Plant has a consecrated Temple and working in a milieu of Vedic Chants and hymns, not only keeps the Production Teams positively charged up, but it does have an impact in the quality of the produce too. This can only be experienced by visiting the Facility, and can't be put aptly into words.

Synthetic colours, fragrances and additives are far from anything to do with products manufactured here for any private label-BIG or SMALL, LOCAL or GLOBAL .

**ASLI**  
AYURVEDA

The Authentic Ayurveda Company

**ASLI Values**

At ASLI AYURVEDA, our core values are Authenticity, Quality, Sustainability, Customer Satisfaction, Collaboration, and Continuous Improvement. We uphold the true essence of Ayurveda by providing authentic, high-quality, and sustainable private labeling solutions. Our customer-centric approach and transparent partnerships empower brands to create unique products that resonate with their audience. Together, we embrace innovation and strive to make a positive impact by connecting people with the timeless wisdom of Ayurveda.

All set to function as the manufacturing arm of numerous brands PAN India, Asli Ayurveda's manufacturing unit is spread over 50,000 sq. feet, in Karnal (Haryana) - about 3 hours from Delhi.

- **Benefit :** Could support healthy weight gain and improve stamina.

#### Gokshur (Tribulus terrestris)

- **Info :** Known for its revitalizing properties.
- **Benefit :** May improve physical strength and aid in weight gain.

#### Yashti Madhu (Glycyrrhiza glabra - Root)

- **Info :** Known for its anti-inflammatory and adaptogenic properties.
- **Benefit :** May reduce inflammation and support weight gain.

#### Bala (Sida cordifolia - Root)

- **Info :** Known for its rejuvenating effects.
- **Benefit :** Could help in building muscle and gaining weight.

#### Empty Capsule 0 SIZE

- **Info :** Capsule shell.
- **Benefit :** Holds the ingredients together for easy ingestion.

### Overall Benefit:

Designed for healthy weight gain and hormonal balance.

# Kidney Care Series

Round out your health and wellness line with kidney care. Ideal for detoxification and renal health

## 1. Kidney Cleanse

### Ingredients and Benefits :

#### Punarnava (*Boerhavia diffusa*)

- **Info :** Punarnava is a medicinal herb commonly used in traditional Ayurvedic medicine. It's known for its diuretic and anti-inflammatory properties.
- **Benefit :** Kidney Health: Punarnava is often used to support kidney function by promoting diuresis (increased urine production). It may help in managing conditions like kidney stones and urinary tract infections. Anti-inflammatory: Punarnava may have anti-inflammatory effects and is used for conditions associated with inflammation.

#### Gokshur (*Tribulus terrestris*)

- **Info :** Gokshur, also known as "Devil's Weed" or "Puncture Vine," is an Ayurvedic herb with diuretic and revitalizing properties.
- **Benefit :** Urinary Health: Gokshur is commonly used to support urinary health and address issues related to the urinary system. Kidney Function: It may assist in maintaining healthy kidney function and promoting urine production.

#### Varun: (*Crataeva nurvala*)

- **Info :** Varun, or "Caper," is used in traditional Ayurveda for its effects on urinary and kidney health.
- **Benefit :** Kidney Stones: Varun is often used to help manage kidney stones and urinary discomfort. It may support the passage of kidney stones.

#### Pashanbhed: (*Bergenia ligulata*)

- **Info :** Pashanbhed is an Ayurvedic herb traditionally used for its potential benefits on urinary and kidney health.
- **Benefit :** Kidney Stones: Pashanbhed is believed to assist in the management of kidney stones and may aid in the passage of urinary stones.

#### Bhumiamla (*Phyllanthus niruri*)

- **Info :** Bhumiamla, also known as "Stonebreaker," is a plant commonly used in traditional herbal medicine.
- **Benefit :** Kidney Stones: Bhumiamla is traditionally used to manage kidney stones by aiding in their dissolution and promoting their passage. It supports overall kidney health.

#### Pippali (*Piper longum*)

- **Info :** Pippali, or long pepper, is a well-known Ayurvedic herb used for various medicinal purposes.
- **Benefit :** Diuretic: Pippali has mild diuretic properties and may help increase urine production, potentially supporting kidney health.

### Overall Benefit:

Formulated to promote kidney health and detoxify the kidneys.

# Kidney Care Series

Round out your health and wellness line with kidney care. Ideal for detoxification and renal health

## 2.

## MuscleBuild

### Ingredients and Benefits :

#### Ashwagandha (Withania somnifera)

- **Info :** Ashwagandha is an adaptogenic herb known for its stress-reducing and rejuvenating properties. It has a long history of use in Ayurvedic medicine.
- **Benefit :** Stress Reduction: Ashwagandha helps the body adapt to stress and reduce stress-related symptoms.
- **Immune Support:** It may enhance immune function and overall well-being.

#### Vidarikand (Pueraria tuberosa)

- **Info :** Vidarikand, also known as Indian Kudzu, is a climbing herb used in Ayurvedic medicine.
- **Benefit :** Vidarikand is used for rejuvenation and overall vitality.
- **Nutrient-Rich:** It is a source of nutrients and may provide energy and nourishment.

#### Kapikacchu (Mucuna pruriens)

- **Info :** Kapikacchu, also known as Velvet Bean, is an herb recognized for its potential to support neurological health.
- **Benefit :** Nervous System Support: Kapikacchu may promote neurological health and mood balance.
- **Libido Enhancement:** It is also known for its potential to support reproductive health and libido.

#### Shatavari (Asparagus racemosus)

- **Info :** Shatavari is a revered herb in Ayurveda, known for its nourishing and balancing properties, particularly for women.
- **Benefit :** Female Reproductive Health: Shatavari supports female reproductive health, menstrual regularity, and hormonal balance.
- **Digestive Health:** It may also support digestive and overall well-being.

#### Draksha (Vitis vinifera)

- **Info :** Draksha, or grapes, are a common fruit known for their potential health.
- **Benefit :** Antioxidant Properties: Grapes are rich in antioxidants, which can help protect the body from oxidative stress and support overall health.
- **Heart Health:** They may contribute to cardiovascular health.

#### Vidhara (Argyreia speciosa)

- **Info :** Vidhara is an Ayurvedic herb that has been used traditionally for various purposes.
- **Benefit :** General Wellness: It is believed to support general wellness and vitality.
- **Potential Benefits:** Vidhara is used in Ayurveda for its potential benefits, though scientific evidence may be limited.

#### Atibala (Abutilon indicum)

- **Info :** Atibala is an herb known for its traditional medicinal uses.
- **Benefit :** Muscular Health: It may be used to support muscular health.
- **Potential Benefits:** Atibala is utilized in traditional herbal remedies, although more research is needed to confirm specific benefits.

### Overall Benefit:

Designed to aid muscle development and boost strength.

### 3. StressRelief

#### Ingredients and Benefits :

##### Brahmi (Bacopa monnieri)

- **Info :** Brahmi is an Ayurvedic herb known for its cognitive-enhancing properties.
- **Benefit :** Cognitive Function: Brahmi may enhance memory, focus, and overall cognitive function. Stress Reduction: It has adaptogenic properties that help reduce stress and anxiety.

##### Tulsi (Holy Basil, Ocimum sanctum)

- **Info :** Tulsi is considered sacred in Ayurveda and is known for its medicinal properties.
- **Benefit :** Tulsi acts as an adaptogen, helping the body adapt to stress. Immune Health: It may boost the immune system and provide antioxidant support.

##### Bhringraj (Eclipta alba)

- **Info :** Bhringraj is a popular herb in Ayurvedic and traditional medicine for hair and overall health.
- **Benefit :** Hair Health: Bhringraj is known for promoting hair growth and reducing hair fall. Liver Health: It is believed to support liver health and detoxification.

##### Abhrak Bhasma

- **Info :** Abhrak Bhasma is an Ayurvedic mineral-based preparation.
- **Benefit :** Respiratory Health: It may be used in Ayurveda for respiratory conditions and supporting lung health. Digestive Health: Some traditional uses include promoting digestion.

##### Mukta Pishti

- **Info :** Mukta Pishti is a traditional Ayurvedic preparation made from pearls.
- **Benefit :** Cooling Effect: Mukta Pishti is known for its cooling properties and is used in conditions with excessive heat. Heart Health: It may be used to support heart health and emotional balance.

##### Ashwagandha (Withania somnifera)

- **Info :** Ashwagandha is an adaptogenic herb known for its stress-reducing properties.
- **Benefit :** Stress Reduction: Ashwagandha helps the body adapt to stress and reduce stress-related symptoms. Immune Support: It may enhance immune function and overall well-being.

#### Overall Benefit:

Formulated to reduce stress and induce relaxation.

# Kidney Kleanse Series

Round out your health and wellness line with kidney care. Ideal for detoxification and renal health

Skin Health: It supports skin health and a youthful complexion.

### Ashwagandha (*Withania somnifera*)

- **Info :** Ashwagandha is an adaptogenic herb known for its stress-reducing properties.
- **Benefit :** Stress Reduction: Ashwagandha helps the body adapt to stress, which can slow down the aging process.  
Immune Support: A strong immune system is essential for overall health and anti-aging.

### Overall Benefit:

Tailored to promote overall well-being and vitality.

# DetoxCleanse

## Ingredients and Benefits :

### Triphala:

- **Info :** Triphala is a combination of three fruits: Amla (Indian gooseberry), Haritaki, and Bibhitaki. It's widely used in Ayurveda.
- **Benefit :** Digestive Health: Triphala supports healthy digestion, regular bowel movements, and detoxification. Antioxidant Properties: It is rich in antioxidants, which help protect cells from oxidative stress and aging.

### Erand (Castor Seed):

- **Info :** Castor seeds are derived from the castor plant and are used for various health purposes.
- **Benefit :** Laxative: Castor oil derived from castor seeds is a natural laxative and may help with constipation. Skin Health: Castor oil is used topically for skin conditions and may promote skin health.

### Trikatu:

- **Info :** Trikatu is a traditional Ayurvedic blend of three warming spices: Black pepper, Long pepper, and Ginger.
- **Benefit :** Digestive Aid: Trikatu is used to improve digestion, increase appetite, and reduce flatulence. Metabolism: It may help boost metabolism and support weight management.

### Punarnava (Boerhavia diffusa):

- **Info :** Punarnava is known for its diuretic and rejuvenating properties in Ayurveda.
- **Benefit :** Kidney Health: Punarnava supports kidney function and may help manage kidney conditions. Fluid Balance: It assists in maintaining fluid balance and reducing water retention.

### Vrikshamla (Garcinia cambogia):

- **Info :** Vrikshamla, also known as Malabar tamarind, is a tropical fruit used in Ayurveda.
- **Benefit :** Weight Management: It is believed to support weight management by reducing appetite and blocking fat production. Metabolic Health: Vrikshamla may help regulate metabolism.

### Overall Benefit:

Formulated to assist in body detoxification and toxin elimination.

# Blood Sugar Control

## Ingredients and Benefits :

### Karela (Bitter Melon):

- **Info :** Karela, also known as Bitter Melon or Bitter Gourd, is a vegetable with a bitter taste and has a long history of traditional use.
  - **Benefit :** Blood Sugar Management: Karela is used to help manage blood sugar levels and may be beneficial for individuals with diabetes.
- Antioxidant Properties: It contains antioxidants that help protect cells from oxidative damage.

### Jamun (Indian Blackberry):

- **Info :** Jamun, or Indian Blackberry, is a fruit with a unique taste and color, known for its potential health benefits.
  - **Benefit :** Blood Sugar Control: Jamun is used traditionally to help control blood sugar levels and is beneficial for individuals with diabetes.
- Antioxidant Effects: It is rich in antioxidants that combat free radicals.

### Vijaysar:

- **Info :** Vijaysar is a tree bark known for its potential medicinal properties.
  - **Benefit :** Blood Sugar Management: Vijaysar is used to manage blood sugar levels and has anti-diabetic properties.
- Weight Management: It may aid in weight management by promoting a feeling of fullness.

### Gudmar (Gymnema Sylvestre):

- **Info :** Gudmar, also known as Gymnema Sylvestre, is an Ayurvedic herb with anti-diabetic properties.
  - **Benefit :** Blood Sugar Control: Gudmar is known for reducing sugar cravings and helping manage blood sugar levels.
- Weight Loss Support: It may aid in weight loss by reducing the taste of sweetness.

### Giloy (Tinospora cordifolia):

- **Info :** Giloy, also known as Guduchi, is an Ayurvedic herb with various health properties.
  - **Benefit :** Immune Support: Giloy is used to boost the immune system and protect the body from infections.
- Anti-inflammatory: It has anti-inflammatory properties that may be helpful for various health conditions.

### Amla (Amalaki):

- **Info :** Amla, also known as Indian Gooseberry, is a nutritious fruit with a sour taste and rich in vitamin C.
  - **Benefit :** Antioxidant Properties: Amla is one of the richest natural sources of antioxidants, which help protect against oxidative stress and aging.
- Immune Health: It supports the immune system and overall well-being.

### Overall Benefit:

Designed to regulate blood sugar levels effectively.

# ThyroidThrive

## Ingredients and Benefits :

### Triphala:

- **Info :** Triphala is a combination of three fruits: Amla (Indian gooseberry), Haritaki, and Bibhitaki, widely used in Ayurveda.
- **Benefit :** Digestive Health: Triphala supports healthy digestion and helps eliminate toxins from the body, which can indirectly benefit thyroid health.  
Antioxidant Properties: It contains antioxidants that may help protect the thyroid from oxidative stress.

### Kanchanar (Bauhinia variegata):

- **Info :** Kanchanar is a tree with bark and leaves traditionally used in Ayurveda for its medicinal properties.
- **Benefit :** Thyroid Support: Kanchanar is believed to support thyroid function and is used in Ayurveda for thyroid disorders.  
Lymphatic Health: It is thought to help cleanse the lymphatic system, which can benefit overall health.

### Trikatu:

- **Info :** Trikatu is a blend of three spices: Black pepper, Long pepper, and Ginger, known for their warming properties.
- **Benefit :** Metabolism: Trikatu may help improve metabolism and support overall wellness, including thyroid health.  
Digestive Aid: It aids digestion and helps in nutrient absorption.

### Varun (Crataeva nurvala)

- **Info :** Varun, also known as Caper, is used in Ayurveda for its potential effects on the urinary and reproductive systems.
- **Benefit :** Kidney Health: Varun may help maintain healthy kidneys and support their function.  
Urinary Health: It can assist in the management of urinary issues and promote urinary tract health.

### Guggulu (Commiphora wightii):

- **Info :** Guggulu is a resin derived from the mukul myrrh tree and has been used for centuries in Ayurveda.
- **Benefit :** Thyroid Health: Guggulu is known for its potential to support thyroid function and is used in Ayurveda for thyroid disorders.  
Cholesterol Management: It may help manage cholesterol levels, which can have an impact on overall health.

### Overall Benefit:

Crafted to support thyroid health and optimize its function.

# AllergyEase

## Ingredients and Benefits :

### Karkatshringi (Pistacia integerrima):

- **Info :** Karkatshringi, also known as Kakrasingi, is a plant used in Ayurveda for its medicinal properties.
- **Benefit :** Respiratory Health: It is traditionally used to alleviate respiratory symptoms, such as cough, congestion, and allergies.

### Sonth (Ginger - Zingiber officinale):

- **Info :** Sonth, derived from ginger, is a warming spice used both in cooking and as a remedy.
- **Benefit :** Anti-Inflammatory: Ginger has anti-inflammatory properties that can help reduce inflammation in the respiratory tract. Allergy Relief: It may provide relief from allergic symptoms like nasal congestion and sneezing.

### Pippali (Long Pepper - Piper longum):

- **Info :** Pippali is a traditional spice and herbal remedy in Ayurveda.
- **Benefit :** Respiratory Health: Pippali is used to support respiratory health, reduce congestion, and relieve symptoms associated with allergies. Immune Support: It may enhance the immune system to better cope with allergens.

### Marich (Black Pepper - Piper nigrum):

- **Info :** Marich, or black pepper, is a common spice known for its culinary and therapeutic uses.
- **Benefit :** Anti-Inflammatory: Black pepper has anti-inflammatory properties that can help reduce inflammation in the respiratory system. Respiratory Relief: It may provide relief from allergies by reducing congestion and promoting clear breathing.

### Shirish (Albizia lebbek):

- **Info :** Shirish, also known as Siris, is a traditional Ayurvedic herb used for various health purposes.
- **Benefit :** Respiratory Health: Shirish may have properties that support respiratory health, making it potentially beneficial for allergies and respiratory issues.

### Amla (Amalaki - Phyllanthus emblica):

- **Info :** Amla, or Indian Gooseberry, is a rich source of vitamin C and antioxidants.
- **Benefit :** Immune Support: Amla's vitamin C content boosts the immune system, helping the body defend against allergens. Antioxidant Properties: It helps protect cells from oxidative stress and inflammation.

### Overall Benefit:

Formulated to provide relief from allergy symptoms and maintain immune system balance.

# Mono Herb Capsules

## Focused Healing from Nature

Mono herb capsules are all about the purity and simplicity of nature's remedies. Each capsule contains a single, carefully chosen herb, allowing you to target specific health issues or enhance your overall wellness. Explore the individual healing properties of these mono herb capsules and how they can be a valuable addition to your natural health regimen.

## 1. Ashwagandha (*Withania somnifera*)

- **Info :** Also known as Indian ginseng, ashwagandha is an adaptogenic herb that helps the body adapt to stress.
- **Benefit :** It may reduce stress and anxiety, enhance energy levels, improve sleep quality, and support overall vitality.
